Facebook: [@napavalleymontessori](https://www.facebook.com/napavalleymontessori)

**CHILDCARE
PROVIDED!**

So you thought you knew, but you have no idea . . .

LEARN THE ANSWERS FROM A BRAIN FUNCTION PERSPECTIVE

Dr. Taylor is releasing her latest book for sale, for the first time at this seminar. She'll be signing after the lecture and will be gifting her previous book "Aimi" to first-time parents.

Dr. Taylor is a funny, charismatic speaker who is an expert on brain development and speaks internationally to present practical brain function information in entertaining, educational, and empowering ways. Her presentation opens us up to the science of the brain and its role in child development, which encourages us to seek alternative ways of nurturing our children towards positive and healthy growth.
