

Dear Families,

Firstly, I would like to thank all our NVM family and community for making my birthday a truly special and memorable one. The gifts, well wishes, kind words, original art, are all inspiring, and deeply heartwarming. Thank you!

Also, our H3 celebration were truly engaging presentations, everyone participating with engaging presentations, careful, original heritage outlines, and art. Thank you for your generous gifts, as always, they all made the day a memorable event.

We will continue to be thankful this November, a month to commensurate family, blessings, and community! We continue our adventure of learning and discovery!
