

Dear Families,

We continue to discover talents, skills, and interests in class, not just by working but also outdoors and our lively show and tell Fridays.

Thank you for your unwavering support, the donations to address the challenges of the raging pandemic. We will remain vigilant, careful and conscious of healthy and safe practices.

December is also a month of celebrations, and before we embark on our welcome winter break, we shall have our winter festival program. While the program will be streamed, the joy and excitement we know will all be there to enjoy.

We wish you all the blessings of the season, as we all share in the hope for a bountiful New Year.
