

MARCH INTO MUSIC, ACTION AND SPRING! KEEP GREEN, EAT GREENS!

It's a few days to SPRING, and we hope the weather and the prevailing health conditions get us into moving up and about. March brings us the first day of spring, the vernal equinox, time of new beginnings. Daylight Savings also beckons.

We honor the immortal beloved DR. SEUSS, as we feature some of his iconic characters into our March activities. We likewise take note that March is National Women's Month, and we will feature Women achievers and history makers, helping inspire our students to fulfill their potentials. We also honor the work of the International Red Cross, in its efforts to break barriers against war, conflicts and promote humanity.

Green is for Growth, Health as well as mark a beloved tradition, St. Patrick's Day. You may want to send off your energetic lads and lassies on the 17th wearing GREEN, bring GREENIES, eating health with GREENS. On the 18th, FRIDAY, Show and Tell Day, you can have them come in with their DR. SEUSS best, be a CAT in the Hat (and not be a GRINCH/We can all be GREEN, bear it, Eggs and Ham and all. With the equinox, we celebrate the Absolutely Incredible Kid Day (our students deserve it).

PICTURE DAY is set for the 25th, and it is also fitting to end winter with a new set of smiles and precious keep sake memories.

Our Tigers will be doing 10 Apples on Top, and more this March, taking on new challenges. Thank you for your continued support and making our learning adventures fun and fulfilling. Keep smiling and be GREEN, HEALTHY (it happens to be National Nutrition Month as well).

LANGUAGE ARTS/READING/PHONICS

Continuing Consonants (Varying Sounds, Spcial Blends/Combinations/Doubles)

Mastery of Upper Case Letters and Lower Case Letters (Manuscript), Practice of Letters Cursive
