MARCH FORWARD — THE PLACES YOU'LL GO

The winter will give way to SPRING, and while we expect the rain, we certainly look forward to the buzz and bloom when spring breaks through all around us. The 1st of March was Picture Day, and those smiles were once again captured in photographs that last for a lifetime.

Our favorite books come alive with that CAT, as we celebrate the Month of March renewing our memories with the inimitable Dr. Seuss, who celebrates his birthday this March. We expect rhymes and rhythms from the familiar and the not so ones, but the places we can go, as promised, would be great adventures.

We praise all women on International Women's Day, the 8th. We have also tales and selections from the lives of famous women, from fiction and history, to help inspire us for our creative writing, for our art works and preparing for next month's Poetry Pathways.

Of course, St. Patrick's Day on the 17th brings us to the green fields of dance, music, literature. As it falls on our Show and Tell Day, you are welcome to send your little leprechauns in **GREEN**, or bring pots of gold from rainbows (anything green to enliven the day, non-living of course). We still have our Reptiles and Amphibians for Science Discovery, and our daily exercises help to achieve results from patient hands writing in cursive (or doing outstanding art works).

DATES TO REMEMBER

March 30-31 — Spring Break — No School

PLEASE NOTE that we are CLOSED ALL DAY on the last Thursday and Friday in March for Spring Break.

April 28 — Trike/Bike-A-Thon
